

Urban furniture bench in tropical wood h763_71

Urban furniture bench h763_71 in tropical wood and black oxiron painted galvanized steel tube. Overall dimensions 1950x580x898 mm.

The **tropical wood urban furniture bench h763_71** is a stationary furnishing element developed to rationalize the layout of outdoor rest areas, where urban benches contribute to relaxation, conversation, and those daily moments that define a city. Developed for **public administrations, municipal technical offices, municipal construction site managers, and green space designers**, this structure meets the need for public space benches that combine design, durability, and comfort, creating places where people want to sit, linger, and socialize. The module solves the operational problem of **rapid structural degradation caused by atmospheric agents and acts of vandalism in unattended public areas, ensuring a stable seat, protected from corrosion and equipped with integrated armrests to favor accessibility**. The supporting structure is manufactured from galvanized steel tube with a black oxiron powder-coated finish (galvanized steel tube with black powder coating), combined with heavy tropical wood slats with high biological resistance.

Technical characteristics

- **Product type:** bench for urban furniture and public spaces
- **Support structure material:** galvanized steel tube
- **Protective treatment and metal finish:** black oxiron powder coating (black powder coating)
- **Seat and backrest material:** tropical wood
- **Structural configuration:** equipped with integrated lateral armrests in the frame
- **Total overall length (from graphic survey):** 1950 mm
- **Total overall depth (from graphic survey):** 580 mm
- **Maximum total height above ground (from graphic survey):** 898 mm
- **Seat height from the ground (from graphic survey):** 470 mm
- **Upper armrest height from the ground (from graphic survey):** 645 mm
- **Graphic survey representation scale:** S: 1/50
- **Graphic attachment reference:** file named "image_89e964.png"
