

Urban furniture bike rack h191_108

5-seater bike rack in galvanized steel and grey pebbled concrete. Dimensions L. 227 x D. 45 x h. 93 cm. Safe and self-standing design.

The **urban furniture bike rack h191_108** is a **5-seater** bicycle parking system, designed to offer a robust and durable solution for public spaces. Featuring a structure in **galvanized and powder-coated steel** in micaceous grey, it integrates solid lateral supports in **concrete with a grey pebbled finish**. This material combination meets the needs of municipal administrations and managers of commercial areas requiring furniture elements resistant to atmospheric agents and vandalism. The frame configuration allows the user to **secure the bicycle directly to the structure**, solving the problem of vehicle security against theft and ensuring superior stability compared to traditional floor models.
