

Urban furniture bollard h287_328

Water-repellent concrete road bollard, 46x46x40 cm, 220 kg. Equipped with a galvanized eyebolt for handling and security chain attachment.

Parking and road delimitation bollard designed for vehicle flow management and protection of pedestrian areas in urban, commercial, and residential contexts. The structure is made of **high-density concrete**, subjected to a specific **water-repellent anti-degradation treatment** for prolonged exposure to atmospheric agents and freeze-thaw cycles.

The integration of a **galvanized eyebolt** on the top of the product allows for both safe handling during installation phases and the potential anchoring of chains to create continuous physical barriers.

Technical features

- **Material:** Concrete with external water-repellent finish
- **Accessories included:** Galvanized eyebolt for lifting and chain attachment
- **Base dimensions:** 46 x 46 cm
- **Height:** 40 cm
- **Mass:** 220 kg
- **Aesthetic options:** Available in various surface finish variants
