

Urban furniture bollard in galvanized steel h1003_22

H1003_22 galvanized steel bollard, rounded triangular section, H 80 cm. Contemporary design and dual fixing mode for urban furniture.

The **H1003_22** bollard is an urban furniture element designed to integrate perimeter protection and contemporary aesthetic research. Characterized by a particular **triangular section with rounded corners**, this bollard serves as a functional barrier and architectural complement, harmonizing with modern urban contexts. The structure is made of **hot-dip galvanized steel** and finished with thermosetting polyester powder coating, a combination that ensures weather resistance and long-term durability without the need for ordinary maintenance.

Technical features

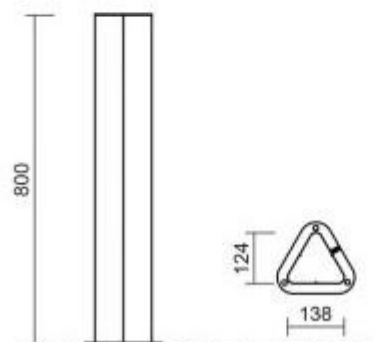

- **Material:** hot-dip galvanized steel with thermosetting polyester powder coating finish.
- **Dimensions:** W 13.4 x D 12.4 x H 80 cm (height above ground).
- **Weight:** 8 kg.
- **Geometry:** triangular section with rounded corners.
- **Fixing system:** designed for embedding in concrete or surface installation via perforated plate for mechanical/chemical anchors.
- **Finish:** available in various colors from the RAL scale upon request.
- **Intended use:** outdoor environments, public areas, sidewalks and commercial zones.
