

Urban furniture fountain h744_28

Cast iron fountain for public spaces with a dodecagonal section column. Height: 125 cm. Base depth: 30 cm.

The product consists of a **dodecagonal section column** and **circular base**, designed for tap assembly by removing the cover (tap not included). At the top of the column, there is a **lion face as an ornamental frieze**, with a perforated mouth to accommodate the tap. The structure also includes a **containment basin** with relative **overflow drain slot**, complete with **grate**. Everything is made of **cast iron EN GJL 200 (UNI EN 1561)**. Fixing is done at level "0" using anchor bolts.

Technical Features:

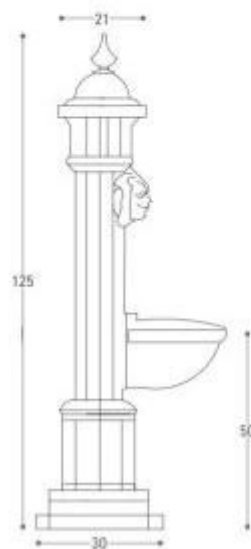

- Base depth: 30 cm
