

Urban furniture fountain in reconstructed stone h33807

Garden fountain in reconstructed stone with stainless steel front and timed tap. W. 80 x D. 50 x h. 114 cm (above ground). Available in various colors.

The **urban furniture drinking fountain** is an **elegant and modern** solution, perfect for aesthetically and functionally enhancing avenues, parks and squares. Its **contemporary design** integrates harmoniously into any urban context, offering a touch of class and sophistication to public spaces. This outdoor fountain is characterized by a **monolithic structure** unique, designed to be **embedded for approximately 10 cm into the flooring**. This construction detail not only ensures greater stability and safety, but also allows for perfect integration with the surrounding environment, avoiding unsightly protrusions and facilitating maintenance. The heart of the fountain is a **central element made of high-quality stainless steel**, chosen for its corrosion resistance and durability over time. A **chrome-plated timed tap** is inserted in the center of this element, allowing for controlled water use, promoting water saving and reducing waste. The timed mechanism is designed to automatically shut off the water flow after a set period, thus offering a **practical and sustainable solution**. The fountain is available in a **range of different acrylic colors**, all resistant to water and atmospheric agents. These finishes not only add a touch of color and vibrancy to public spaces, but also ensure product longevity, keeping its aesthetic and functional characteristics unchanged over time. In summary, the urban furniture fountain is a refined and functional design element, ideal for enhancing and making avenues, parks and squares more welcoming. Its robust construction, combined with the use of high-quality materials and a design meticulous in every detail, makes it an excellent choice for those wishing to combine aesthetics and functionality in public spaces.

Technical features:

- Material: Reconstructed stone with stainless steel central element
- Equipped with chrome-plated timed tap
- Fixing: to be embedded for approximately 10 cm into the flooring
- Available in various finishes
- Dimensions: 80 x 50 x h. above ground 114 cm
- Total height 124 cm
- Weight: approx. 410 Kg
- Made in Italy

- **Material** cemento
- **Length in millimetres** 800.000000
- **Depth in millimetres** 500.000000
- **Height in millimetres** 1140.000000
- **warranty** 1 anno
- **Type** in column
