

Urban furniture fountain suitable for disabled people h465_11

Outdoor fountain suitable for disabled people. Dimensions: W. 697 x D. 300 x h.1135 mm. Made of steel and equipped with two push-button taps.

Fountain for urban furniture ideal for completing the furnishing of public spaces such as gardens, parks, streets and city squares. The presence of **two push-button taps** makes the fountain **suitable also for disabled people**, resulting therefore perfect for being placed in various urban environments. The **two timed push-button taps** allow for the **water flow control** of the fountain, favoring its correct use. The product is made of **steel with hammer paint finish** and **304 stainless steel basins** with satin finish.

Technical features:

- Dimensions: W. 697 x D. 300 x h.1135 mm
