Urban furniture notice board h575_122

Outdoor notice board in heat-treated pine with 200 x 100 cm birch panel and ground anchoring. Dimensions 218 x 9 x 200 cm

The **notice board for trails and public spaces in heat-treated pine wood** is an element of urban furniture intended for displaying communications and information in parks, nature trails, and green areas. The structure allows for the setup of an outdoor information point, with a large panel for consultation by visitors.

The notice board features a structure consisting of **heat-treated pine wood posts and boards**, with rounded corners. The material replaces the autoclave-impregnated Nordic pine indicated in the original configuration.

The display surface is made with a **birch plywood panel treated for outdoor use**, with dimensions of **200 cm in width and 100 cm in height**. The panel is intended for displaying notices, communications, and information material in passage and resting areas.

The supporting structure includes **laminated heat-treated pine posts with a 9 x 9 cm section** and rounded corners, equipped with **galvanized brackets for ground anchoring**. All fasteners are made of **stainless steel**.

With overall dimensions of **218 x 9 x 200 cm**, the notice board is suitable for setting up information points along trails, in parks, and in outdoor public spaces.

Technical characteristics
