

Urban furniture planter 280 L h1003_14

Round planter Ø 1000 mm for tall plants, capacity of 280 L. Dimensions: Ø 100 x H 60 cm.

The **H1003_14 planter** is an elegant and robust solution designed for **urban furniture** in high-traffic contexts such as **squares, historic centers, pedestrian walkways, shopping malls, or public areas**. Thanks to its **280-liter capacity** and its **tapered conical design**, it is ideal for housing **tall plants, ornamental trees, or high-impact floral arrangements**.

Made of **galvanized steel and painted with thermosetting polyester powders**, it guarantees high **resistance to corrosion**, weathering, and wear over time. Its sober yet refined appearance allows it to **blend harmoniously** into both historic and modern environments, helping to make **public spaces more welcoming, decorated, and functional**.

The planter is equipped with **provision for ground fixing using expansion bolts** (not supplied), ensuring greater **stability and safety** even in windy areas or those subject to frequent passage. The **35 kg monolithic structure** allows for stable and durable positioning.

Make your public spaces greener and more welcoming! Order the **H1003_14 planter** now or request a personalized quote for multiple supplies.

FAQ:

- 1. Is this planter suitable for outdoor use all year round?**
Yes, it is made of powder-coated galvanized steel, perfectly resistant to atmospheric agents.
- 2. Can I fix it to the ground?**
Yes, it is prepared for fixing with expansion bolts (not supplied).
- 3. Is it compatible with the use of inner liners?**
It does not have an integrated inner liner. Use is possible but must be checked with compatible measurements.
- 4. In what colors is it available?**
Several RAL colors are available on request.
- 5. Is it suitable for medium-height trees?**
Yes, thanks to its 280 L capacity and internal diameter of 900 mm.

Mini purchase guide:

When selecting a planter for public environments, it is essential to evaluate **capacity, resistance, and stability**.

A 280 L planter like the H1003_14 is ideal for planting medium-tall trees, as it offers **sufficient root space**, great **ground stability**, and a resistant structure.

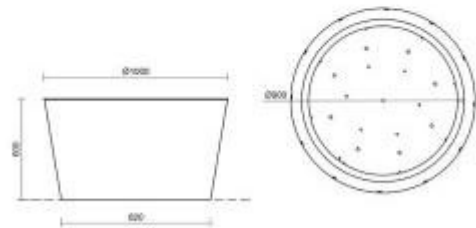

Always prefer treated materials such as **painted galvanized steel**, durable even in critical weather conditions. The **conical shape** ensures a harmonious aesthetic, also functional for water collection.

Urban furniture 280 liter steel planter, large planter for outdoor historic centers, Ø 1000 mm planter in galvanized steel, planter for squares and public avenues, planter with ground fixing for trees.
