

## Urban furniture planter h330\_09

Urban planter in galvanized steel and aluminum, 1000x510x635 mm. Modern slatted design for furnishing commercial areas, offices, and public spaces.

This urban furniture planter is designed to integrate contemporary aesthetics and structural resistance in high-traffic contexts. The structure, made of **laser-processed steel sheet** and press-bent, stands out for its painted aluminum decorative slats that provide a modern and innovative visual rhythm. It is the ideal solution for enhancing entrances to shopping centers, executive offices, and condominium spaces, ensuring durability and protection against atmospheric agents.

## Technical features

- **Structure material:** Galvanized and painted steel with high-precision laser cutting
- **Aesthetic elements:** Oxidation-resistant painted aluminum slats
- **Inner basin:** Press-bent, galvanized, and painted sheet metal for double protection
- **Fixing system:** Bases prepared with 4 holes (14 mm diameter) for stable anchoring to the ground
- **Dimensions:** L.1000 x D.510 x h.635 mm
- **Weight:** 60 Kg (guarantees intrinsic stability)
- **Options:** Available in different RAL scale colors
