

## Urban furniture planter h35055

Urban furniture planter in galvanized and powder-coated steel, 68x68x72 cm. Robust tubular structure for squares, courtyards, and shopping centers.

This **urban furniture planter** is designed for the layout and enhancement of pedestrian areas, squares, condominium courtyards, and entrances to shopping centers or offices. The structure combines an essential design with remarkable mechanical resistance, solving the need for space delimitation and green decoration in high-traffic contexts.

Made with a **tubular steel** frame, the planter undergoes a galvanization process followed by powder coating, treatments that guarantee superior protection against oxidation and atmospheric agents, minimizing routine maintenance.

## Technical features

- **Material:** high-quality tubular steel
- **Surface treatment:** galvanization and powder coating
- **Fixing system:** designed for floor-level positioning
- **Total dimensions:** L 68 x W 68 x h 72 cm
- **Configuration:** self-supporting and stable structure
