

Urban furniture planter h924_36

Square recycled plastic planter for outdoors, resistant and sustainable. Dimensions: W 55 x D 55 x H 35 cm. Weight: 18 kg.

The **urban furniture planter H924_36** represents a modern, ecological and functional choice for furnishing **public spaces and outdoor environments**. Thanks to **100% recycled plastic**, this product combines **environmental sustainability, weather resistance** and **minimal maintenance**, making it perfect for parks, sidewalks, green areas, squares and urban contexts.

The recycled plastic used is a **durable solution** that does not warp, does not fade and does not require periodic treatments such as painting or protection against mold and insects. The compact square design, with dimensions **55 x 55 x h 35 cm**, makes it **ideal for delimiting spaces**, decorating entrances or completing urban landscaping projects.

The **weight of 18 kg** ensures **stability even in open spaces**, reducing the risk of accidental movement. It is a **solid and functional** furnishing accessory, designed to offer aesthetic value and practicality with a strong focus on the environment.

Bring sustainability and style to your urban spaces with the **H924_36 planter**. Contact us now for customized solutions or bulk orders for public or private projects.
