

Urban furniture shelter h140295

Shelter for public spaces in steel and wood. Dimensions: 321x151x243H cm.

Urban furniture shelter with rear walls in **wood** planks. Structure consisting of two vertical uprights made of galvanized steel square tube; each individual upright is complete with a base plate made of galvanized sheet metal and equipped with holes for fixing to the ground. The **uprights** are consolidated to the plates through triangular stiffening gussets in **galvanized sheet metal**. Shaped upper arches obtained by high-definition plasma cutting, connected to each other by horizontal crossbars in galvanized steel square tube; each crossbar is characterized by shaped galvanized steel ends. Back wall consisting of two crossbars (upper and lower) in galvanized steel square tube; cladding made with Nordic pine wood strips fixed on a specific perimeter frame in galvanized steel profile. **Side wall** consisting of a perimeter frame in galvanized steel profile; front upright in galvanized steel square tube equipped with a base plate with holes for fixing to the ground; polished edge transparent laminated glass infill, inserted into the frame with specific perimeter gaskets and supported by galvanized steel glazing beads. **Roofing** made of smoked compact polycarbonate, unbreakable, UV protected and particularly suitable for outdoor use; the roof is characterized at the front and back by a **gutter**, formed by a specific shaping of the panel, for the collection and drainage of rainwater. **Bench** consisting of galvanized steel profile supports designed for assembly to the rear wall, seat made with four Nordic pine wood planks, one of which has a rounded front profile. The **standard finish** for this product is anthracite gray. The **painting technique** adopted for the galvanized steel structure is thermosetting powder coating with oven baking. **Assembly kit** and mounting instructions included.

Technical features:

- Anti-corrosion treatment
- Solid structure in galvanized steel and wood
- Fixing to the ground by means of anchor bolts and expansion plugs
- Assembly kit with steel screws included
- Total height 243 cm
- Total depth 151 cm
- Total width 321 cm
- Bench height 47 cm
- Length 140 cm
- CE marking according to EN 1090-1:2009 in class EXC1
- UNI EN ISO 9001:2015
- UNI EN ISO 3834-4:2006

Optional

- Template for shelter installation
