

Urban metal bench h86_264

Urban bench in powder-coated steel with anti-corrosion treatment. Dimensions: W 180 x D 53.5 x H 39.7 cm.

The **urban metal bench h86_264** is designed to furnish public spaces, parks, squares and outdoor areas with a mix of elegance, functionality and resistance. Made entirely of **powder-coated steel**, this bench is equipped with an **anti-corrosion treatment** that makes it ideal for prolonged outdoor use, even in adverse weather conditions.

Its structure is composed of sturdy **10 mm thick steel legs**, which guarantee exceptional stability, while the **3 mm perforated steel seat** promotes **water drainage**, preventing stagnation and ensuring quick drying.

Designed to be **fixed to the ground**, the bench offers maximum safety and resistance to accidental movement or vandalism. The bench is supplied **not assembled**, but the intuitive design allows for simple and quick assembly.

With a **weight of only 37 kg**, this bench combines lightness and robustness, making it a versatile solution for every urban context. The **manganese grey** color, modern and elegant, integrates perfectly into both natural environments and contemporary urban spaces.

Choose the **h86_264 urban bench** to give a touch of style and functionality to your public spaces! Resistant, stable and with a modern design, it is the perfect solution to guarantee comfort and durability over time. Order it now and transform your outdoor environment!
