

Urban street furniture bike rack h337_34

Bicycle rack made of galvanized and anthracite gray powder-coated steel, with concrete bases for greater stability. Ideal for public and private areas. Dimensions: L 216 × D 55 × H 38 cm.

The **H337_34 bike rack** is a robust and design solution for bicycle parking in urban areas, parks, schools, or public spaces. Made of **tubular steel Ø 8 cm / D 2 cm** with **concrete** bases, this rack offers excellent resistance to atmospheric agents thanks to the **galvanizing and powder coating** treatment.

Its functional design guarantees maximum stability even in conditions of intense use. The rack is designed to be easily installed on the ground and can accommodate a variable number of bicycles depending on their size. It is a perfect choice for those looking for a combination of **quality, resistance, and practicality**, with **100% Made in Italy** materials.

Installation is simple and the mounting kit includes galvanized screws. It does not require extraordinary maintenance if positioned in environments not particularly exposed to extreme weather conditions or salt air.

Choose the H337_34 bike rack for your public or private spaces. Order now or contact us for further information and personalized quotes!
