

Urban street furniture planter 80 L h1003_15

Urban street furniture planter 80 L in galvanized steel with perforated decoration. Dimensions: W 50.5 x D 50.5 x H 45.2 cm.

The **H1003_15 urban street furniture planter** represents a perfect balance between **contemporary design and urban functionality**. Ideal for enhancing **squares, courtyards, public parks, pedestrian areas or shopping centers**, it is designed to offer an elegant and modular furnishing accessory, capable of **harmonizing with different architectural styles**.

The structure is made of **galvanized steel and painted with thermosetting polyester powders**, a choice that guarantees **durability over time and protection against atmospheric agents**. Its distinctive point is the **perforated surface with a geometric pattern**, which creates a fascinating play of light and shadows, visually lightening the volume and making the planter a true **urban decorative element**.

With a **capacity of 80 liters** and a 25 kg **self-standing** structure, it is stable without the need for fixing to the ground, but easily movable according to layout needs. This makes it a flexible solution for **temporary or modular urban furniture** projects that want to combine aesthetics, practicality, and durability.

Shape urban greenery with style: buy the **H1003_15 planter** now or request a quote for custom installations.

- **Enhances:** the urban environment with a decorative touch.
- **Resistant:** to atmospheric agents.
- **Easy:** to position and modular.
- **Surface:** perforated for a refined visual effect.
- **Structure:** stable and durable.

FAQ:

1. **Is it necessary to fix it to the ground?**

No, the planter is self-standing and stable thanks to its weight.

2. **Can it be moved easily?**

Yes, despite weighing 25 kg, it can be repositioned according to the project's needs.

3. **Is it available in other colors?**

Yes, on request it is available in all colors of the RAL chart.

4. **Is it suitable for outdoors all year round?**

Yes, thanks to the powder coating treatment it is resistant to rain, sun, and frost.

5. **Does the perforated decoration have only an aesthetic function?**

No, it visually lightens the structure and also promotes soil ventilation.

Mini buying guide:

Choosing an urban furniture planter means evaluating **durability, aesthetics, and flexibility of use**. Perforated planters like the H1003_15 add **aesthetic value** to the environment without compromising **resistance and practicality**.

The absence of fixed anchoring makes them ideal for contexts where it is necessary to **rethink spaces frequently**, or for temporary furnishings.

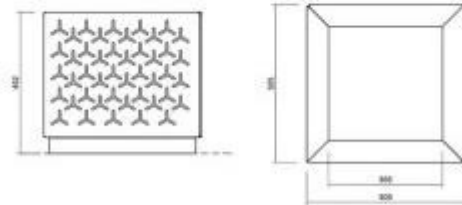

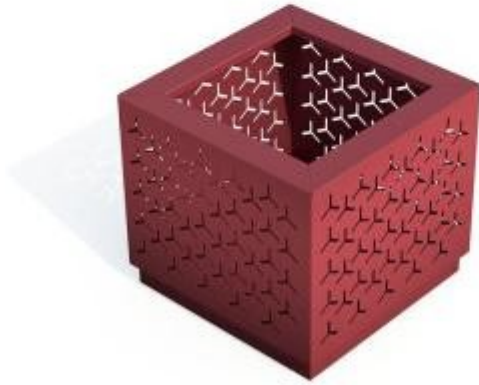

Perfect for those who want to **combine greenery and urban design** in a modern and refined vision.

Steel perforated urban furniture planter, modern design self-standing outdoor planter, 80 liter planter for squares and courtyards, perforated geometric pattern planter in painted steel, customizable RAL urban decorative planter.
