

Urban waste cart h951_04

Manual urban cleaning cart with storage compartment, tools included, and height-adjustable handle. Dimensions: W 87 x D 71 x H 103 cm.

The **compact urban waste cart** model **h951_04** is the ideal equipment for efficient cleaning management of outdoor public spaces. Designed to withstand regular and intensive use, this cart guarantees practicality and robustness, facilitating the work of sanitation workers and improving the organization of cleaning operations. Its **120-liter** capacity offers ample space for waste collection, minimizing the need for frequent emptying and increasing productivity.

The cart is equipped with a **horizontal tool holder** that allows for the storage of up to **four handled tools** for easy access, along with a **vertical handle pocket** to organize additional instruments. This design intelligent ensures that the operator always has everything needed for efficient cleaning at hand. Included tools feature an **aluminum shovel**, a **litter picker for hygienic waste removal**, and a **street broom** with coordinated handles, thus providing a complete solution for daily operations.

The **lockable storage compartment** ensures the safety of tools and materials during breaks or transfers, while the **open shelf** allows quick access to frequently used items. The **height-adjustable handle** ensures optimal comfort, allowing the cart to be adapted to the operator's stature and reducing the risk of fatigue. The **puncture-proof wheels** with a diameter of **310 mm** and integrated brake guarantee stability and maneuverability on all types of terrain, making the cart perfect for streets, sidewalks, and uneven surfaces.

Built with high-quality materials such as **aluminum** and **powder-coated galvanized steel**, this cart is designed to last, offering effective protection against corrosion and wear.

Don't miss the opportunity to improve your team's efficiency in urban waste management. Buy the **urban waste cart h951_04** today and discover how to simplify cleaning and maintenance operations. Contact us for a personalized quote or further details!

Technical features:

- **Dimensions:** W 87 x D 71 x H 103 cm.
- **Weight:** 18 kg.
- **Capacity:** 120 liters.
- **Wheels:** ø 310 mm with brake.
- **Tool holder:** Horizontal for four tools.
- **Vertical pocket:** For additional tools.
- **Equipment:** Aluminum shovel, waste picker, street broom, coordinated handles.
- **Compartment:** Lockable.
- **Open shelf:** For quick access.
- **Handle:** Height-adjustable.

User benefits:

- **Versatility** thanks to the complete set of tools.
- **Safety** with lockable compartment.
- **Improved ergonomics** with adjustable handle.
- **Stability** and safety thanks to wheels with brakes.

FAQ:

1. Are the tools included with the cart?

Yes, the cart includes a shovel, waste picker, and street broom with coordinated handles.

2. **Is it suitable for uneven surfaces?**

Yes, the 310 mm diameter wheels with brakes ensure stability on any terrain.

3. **Can the handle be adjusted for different heights?**

Yes, the handle is adjustable to fit the operator.

Mini buying guide:

Choosing an **urban cleaning cart** requires attention to several features to optimize work operations. The **h951_04** model is ideal for those seeking a robust and versatile solution. With a **120-liter capacity**, it is perfect for managing large amounts of waste, reducing emptying frequency. The **310 mm puncture-proof wheels** with brakes guarantee stability and ease of movement on irregular terrain, making it suitable for sidewalks, parks, and streets. A key strength is the complete tool set: **aluminum shovel**, **waste picker**, and **street broom** with coordinated handles, allowing operations to start immediately without the need for additional equipment. The **horizontal tool holder** and **vertical pocket** allow for transporting up to four tools, keeping instruments organized and readily accessible. The **height-adjustable handle** ensures ergonomic use, adapting to operators of different statures for optimal comfort. Furthermore, the **lockable storage compartment and open shelf** protect tools and materials during transit, offering additional security. Carefully consider the need for a versatile and well-equipped cart like the **h951_04**, ideal for improving the efficiency and convenience of urban cleaning operations.
