

Urban waste collection trolley without tools h951_12

Compact and functional hand trolley with capacity for two 120-liter containers, height-adjustable handle and puncture-proof wheels Ø 310 mm. Dimensions: W 121 x D 71 x H 98 cm.

The **H951_12 urban waste trolley** is designed to **simplify waste collection and waste sorting management** in public environments, parks, urban streets, industrial areas, and hospitality facilities. Thanks to its **compact and maneuverable structure**, it offers **excellent transport capacity** without sacrificing ease of movement.

Made with an **aluminum and powder-coated galvanized steel frame**, it is **resistant to corrosion and atmospheric agents**, perfect for intensive outdoor use. The trolley is equipped with **horizontal supports** that allow for the transport of **up to four long-handled tools and a gripper**, ensuring a complete system for urban cleaning.

The **Ø 310 mm puncture-proof wheels** ensure **stability and smoothness on every type of terrain**, including irregular surfaces such as gravel, grass, and uneven pavements. The **height-adjustable handle** allows the trolley to be adapted to the operator's needs, improving comfort during use.

Unlike many models, the **trolley is supplied already assembled**, ready for immediate use with no assembly required.

Buy the H951_12 trolley now and improve waste collection efficiency with a practical and ergonomic system!

Technical features:
