

Vacuum mattress h567_33

Vacuum mattress h567_33 in PVC and Nylon for traumatic immobilization. Dimensions 215x90cm, 9 handles, radiolucent and self-extinguishing.

The **vacuum mattress h567_33** is a specialized medical device designed for the **safe immobilization and transport** of patients with suspected traumatic injuries. Thanks to the advanced decompression system, the device allows for micrometric adjustment of the level of rigidity, guaranteeing stabilized positioning that reduces the risk of aggravating injuries during handling. The structure is designed to absorb mechanical vibrations during transit on rescue vehicles, protecting the integrity of the patient.

Made with high-resistance materials such as **aluminum, polypropylene, PVC and nylon**, the mattress features a high-visibility orange upper side and a reinforced grey lower side to resist wear on abrasive surfaces. The **chrome-plated brass on/off valve** with integrated hose connector ensures a perfect pneumatic seal even in the presence of significant thermal excursions, guaranteeing unlimited operational life. The fabric is **non-absorbent and self-extinguishing**, facilitating the sanitization operations required after each use.

Technical features

- **Dimensions:** L 215 x W 90 cm ($\pm$ 30 mm)
- **Weight:** 4.10 kg
- **Load capacity:** 150 kg
- **Number of handles:** 9 ergonomic handles for handling
- **Coloring:** Two-tone (Orange/Grey) for quick identification of sides
- **Construction materials:** Aluminum (Al), Polypropylene (PP), PVC, Nylon
- **Closing system:** Chrome-plated brass valve with hose connector resistant to extreme temperatures
- **Fabric properties:** Robust, non-absorbent, self-extinguishing and washable
- **Safety:** Integrated perimeter rope for a secure grip
- **Design:** Tapered shape to optimize anatomical adherence to the patient
- **Diagnostics:** Complete radio-transparency for X-ray examinations without removing the patient

Optional

- Manual plastic pump specifically for vacuum mattresses

Image purely indicative

INFORMATION

- **Number of handles** 9
