

Vandal-proof fountain for urban furniture h465_20

Fountain for urban furniture equipped with galvanized grate and timed tap. Vandal-proof structure. Dimensions: W. 997 x D. 992 x h. 1300 mm.

The **outdoor fountain**, represents a decorative and functional element allowing to complete the furnishing of gardens, parks and city streets. The **vandal-proof structure** makes the product particularly suitable to be placed in urban contexts with high public attendance. The product includes a **galvanized steel grate** which allows the collection of water during use of the fountain itself. The **tap** is equipped with a **timed button** with water flow control.

Technical features:

- Dimensions: W. 997 x D. 992 x h. 1300 mm
- Vandal-proof fountain
- Body: steel
- Timed button brass tap with flow control
- Galvanized steel grate
- Finish: painted with epoxy paint
- 1/2 inch input connection

**During periods of low temperatures, it is recommended to close the water supply, empty the pipes and, if possible, remove the tap head.*
