

Vandal-resistant and inclusive ping pong table h939_01

Outdoor ping pong table H939_01 in fiberglass and galvanized steel. Regulation dimensions, vandal-resistant structure and accessible for disabled people.

The ping pong table **H939_01** is professional equipment specifically designed for **high-traffic outdoor environments** such as public parks, squares, schools, universities and campsites. The structure is engineered to withstand extreme weather conditions and intensive use, thanks to the use of **fiberglass** and **galvanized steel** coated with protective thermoplastic material against corrosion and atmospheric agents.

The playing surface offers a superior technical experience thanks to the reinforced steel frame and the **anti-graffiti and anti-shock gelcoat** finish. The playing lines are integrated directly into the material to prevent wear, while the design with **rounded edges** ensures maximum safety for users. The table is fully accessible for **persons with reduced mobility (PRM)**, promoting inclusivity in common recreational spaces.

Technical features

- **Regulation dimensions:** W 2,740 x D 1,525 mm
- **Total height:** 760 mm (from floor to top of panel)
- **Net height:** 152.5 mm
- **Panel thickness:** 55 mm
- **Side band width:** 100 mm
- **Weight of feet and straps:** 48 kg
- **Total weight:** 160 kg
- **Playing surface:** Reinforced galvanized and non-deformable steel frame, coated in fiberglass and special resins
- **Playing surface:** Anti-graffiti and anti-shock gelcoat finish with incorporated playing lines
- **Perimeter safety:** Rounded and reinforced edges
- **Structure:** Galvanized steel with thermoplastic coating
- **Net:** Curved steel tube (Ø 20 mm), 50 mm handrail and perforated steel sheet with welded structure
- **Feet:** Thermoplastic coated galvanized steel with threaded screw fixing and reinforcement tie rods
- **Certified resistance:** Vandal-resistant, anti-graffiti, anti-corrosion and weather resistant
- **Safety certifications:** Complies with UNE EN 14468-1/2015, UNE EN 14468-2/2016 and UNE EN 15312:2007 + A1:2011
- **Anchoring:** Ground fixing via 4 expansion bolts (included)
- **Customization:** Available in different colors
