

Variable height multifunctional hospital stretcher h634_87

Hydraulic hospital stretcher, variable height 55-85 cm. Dimensions: 210 x 80 cm. Robust and multifunctional structure.

The **variable height hospital stretcher** is a versatile and reliable solution for medical environments such as hospitals, clinics, and outpatient departments. Thanks to the robust epoxy powder-coated **steel frame**, it is **corrosion-resistant** and easy to sanitize, ensuring maximum hygiene. The **3-section HPL** lying surface with mattress retainers offers stability and comfort, while the **fold-down push handles** and the **accessory rail** simplify the operations of healthcare staff. Hydraulic height adjustment from 550 to 850 mm is carried out via pedals accessible from both sides. The **Trendelenburg** and **reverse Trendelenburg** functions, also adjustable, ensure maximum flexibility for different clinical needs. Equipped with **4 antistatic swivel wheels** (Ø 200 mm) and a directional wheel (Ø 150 mm), it guarantees maneuverability and stability thanks to the three-position braking system. The **removable mattress** with fire-retardant and antibacterial cover completes the device for maximum patient safety.

Order the **hospital stretcher** now to improve the efficiency of your department and guarantee comfort and safety for patients!

Technical specifications:

- **Dimensions:** 210 x 80 x h 55-85 cm.
- **Frame:** epoxy powder-coated steel, resistant to corrosion and chemical agents.
- **Lying surface:** 3-section HPL, with mattress retainers.
- **Height adjustment:** hydraulic via pedals (550-850 mm).
- **Wheels:** 4 antistatic swivel wheels Ø 200 mm, 5th directional wheel Ø 150 mm.
- **Trendelenburg:** adjustable via pedals on both sides.
- **Side rails:** fold-down aluminum alloy.
- **Mattress:** polyurethane foam, removable cover, 6 cm thickness, fire-retardant and antibacterial coating.
- **Maximum capacity:** 180 kg.
- **Integrated accessories:** accessory rail, cylinder/container holder compartment.

Optional:

- **IV pole with 4 hooks**

User benefits:

- **Maximum hygiene:** materials easy to sanitize with common hospital disinfectants.
- **Ergonomics:** adjustable height and accessible controls.
- **Maneuverability:** antistatic wheels and three-position braking system.
- **Versatility:** ideal for various medical operations thanks to multiple adjustments.
- **Guaranteed durability:** resistant materials and robust design.

FAQ:

1. **How is the height of the stretcher adjusted?**

The height is adjusted hydraulically via pedals on both sides (550-850 mm).

2. **Is the mattress included?**

Yes, the stretcher is supplied with a removable static mattress.

3. **What materials are used?**

Painted steel frame, HPL surface, and mattress covered in fire-retardant antibacterial fabric.

4. **How is the stretcher cleaned?**

It is compatible with disinfectants based on chlorine, chlorhexidine, or hydrogen peroxide.

5. **Is it easy to maneuver?**

Yes, thanks to the 4 antistatic swivel wheels and the activatable 5th directional wheel.

Mini buying guide:

When choosing a stretcher for your department, make sure it is **ergonomic, easy to maneuver, and compliant with health regulations**. Our multifunctional stretcher offers all these features, with a design intended to last over time and simplify the work of medical staff.
