Variable height tilt table h725_30

Motorized cardiology tilt table h725_30 with double electric motorization, height adjustment 50-95 cm and tilting up to +88°, 72 cm padding, integrated goniometer, 5 straps and 4 wheels with brakes.

The **h725_30 cardiology examination table** is a professional tool for **rehabilitative tilting**, designed to ensure maximum safety and comfort in the treatment of patients with reduced mobility. The **double 10000 N electric motorization** allows both **lifting and tilting**, permitting a smooth transition to an upright posture via **remote control**. The wide **72 cm padding** ensures stability and comfort, while the **integrated goniometer** accurately monitors the patient's position. The system is compatible with mobile hoists thanks to the **clearance for patient lift passage**, making it a versatile solution for healthcare facilities, physiotherapy and rehabilitation centers.

Technical features

- **Total dimensions:** L. 2000 × W. 740 × h. 500–950 mm
- **Variable height:** from 50 to 95 cm
- **Height motor:** electric, 10000 N force
- **Tilting motor:** electric, 10000 N force
- **Positive tilting:** up to +88°
- **Backrest positive/negative inclination:** ±15°
- **Backrest:** with gas spring, inclination up to +80°
- **Structure:** painted steel
- **Upholstery and foam:** fire retardant class IM1
- **Padding width:** 720 mm
- **Control:** remote control
- **Fixing straps:** 5 included
- **Goniometer:** included
- **Wheels:** 4 swivel wheels with brake
- **Maximum capacity:** 200 kg

- **Safe working load:** 160 kg
- **Medical device:** yes, classified and compliant with healthcare standards
- **Clearance for patient lift passage:** yes
- **Available colors:** various

Options

- **Armrest table with variable inclination:** useful for daily activities and upper limb exercises
