

Vertical baby changing station h462_17

Vertical baby changing station made of polypropylene. Open dimensions: 59.5x87.8x48.3 cm. Closed dimensions: 59.5x12x97.8 cm.

The **h462_17 vertical changing station** is the ideal professional solution for setting up nursery areas in high-traffic contexts such as shopping centers, restaurants, and airports. Made of **high-quality polypropylene**, this vertical-mount model stands out for its wide and deep structure that ensures maximum comfort during changing. The intelligent design allows for **one-handed opening and closing**, allowing the operator to keep the second hand free for the child's safety. Integrated into the shell is a practical **liner dispenser with a moisture barrier** (capacity approx. 40 liners) and a built-in shelf for powder or small objects. Safety is ensured by an adjustable strap and special aluminum hooks for bags, accessible from both sides.

Technical features

- **Material:** High-resistance polypropylene with antibacterial protection
- **Orientation:** Vertical wall-mounted (folding)
- **Safety:** Adjustable safety strap and aluminum hooks
- **Hygiene:** Permanent antibacterial protection against stains and odors
- **Functionality:** Integrated liner dispenser (up to 40 units, liners excluded) and storage shelf
- **Maneuverability:** One-handed opening/closing mechanism
- **Open dimensions:** 59.5 (W) x 48.3 (D) x 87.8 (H) cm
- **Closed dimensions:** 59.5 (W) x 12 (D) x 97.8 (H) cm
- **Compliance:** ASTM or EN 12221-1 standards
