

Vertical changing table for public bathrooms h20_101

Vertical changing table for public bathrooms equipped with a nylon safety belt, waterproof and adjustable. Tested for a maximum weight up to 50 kg.

The **h20_101 vertical changing table** is the ideal professional solution for setting up nursery areas in high-traffic contexts such as restaurants, airports, and shopping centers. Designed to optimize the narrow spaces typical of public toilets, this wall-mounted model solves the need for a safe and hygienic changing area thanks to its **high-density plastic** structure with a compact profile. The opening system is assisted by a **steel hinge with a cushioned piston**, which guarantees a smooth and controlled descent of the surface, avoiding accidental impacts. Robustness is ensured by the steel rear mounting plates, which allow the device to support a **maximum load of 50 kg**, offering superior stability compared to standard models.

Technical features

- **Configuration:** Vertical wall mounting
- **Maximum capacity:** Up to 50 kg
- **Material:** High-density technical plastic (HDPE)
- **Color:** White
- **Mechanism:** Steel hinge with cushioned gas piston
- **Safety:** Waterproof and adjustable nylon belt, anti-fall side edges
- **Open dimensions:** 890 x 890 x 550 mm (H x W x D)
- **Safety standards:** Compliant with EN 12221:2008, EC Directive 93/42/EEC
