

Veterinary operating table h930_39

Veterinary operating table with electric operation. Dimensions: W. 134 x D. 69 x h. 30-100 cm. Max capacity: 150 kg.

This **veterinary surgery operating table** offers **electric height adjustment**, facilitated by a **stainless steel hand switch**, allowing for precise and safe control. The **stainless steel top**, with **dimensions of 130x60 cm**, is equipped with a **drain hole** to facilitate cleaning and an integrated **bowl** under the hole for collecting liquids. The **table corners** are designed **with raised edges**, ensuring stable and safe transport during movement. The **sturdy steel structure** is powder-coated, guaranteeing resistance to scratches and breakage, prolonging the product's life even in intensive environments. The **four 12.5 cm wheels** allow for easy movement, while the **side handles** along the top allow the table to be tilted to suit different operational needs. The **table's height can be adjusted from 30 to 100 cm**. A **built-in battery** in the base allows for electric height adjustment even without a power connection, making the table extremely versatile. Standard equipment includes a **battery, a durable padded mattress and a non-slip mat**, which can be replaced with the mattress depending on operational needs.

Technical features:

- Dimensions: W. 134 x D. 69 x h. 30-100 cm
- Table top dimensions: 130x65 cm
- Work surface dimensions: 124x54 cm
- Maximum load: 150 kg
- Weight: 65 kg
- Electric height adjustment via stainless steel hand switch
- 4 wheels Ø 12.5 cm
- Steel structure with scratch and break-resistant powder coating
- Stainless steel table top with 1 drain hole
- Drainage bowl
- Handles
- Mattress
- Non-slip mat for table top
- Battery
