

Veterinary operating table with wheels h930_30

Operating table for veterinary clinics with a 160x65 cm top, electric height and top angle adjustment. W. 167 x D. 65 x h. 87-123 cm.

The **veterinary operating and therapeutic table** is designed to ensure comfort and practicality during operations thanks to the **electric adjustment of the height and angle of the top**. With a **large 160x65 cm surface**, this table offers an optimal and safe workspace. The **structure** is made of robust **powder-coated steel**, with scratch-resistant and chip-resistant properties, while the **stainless steel top** is equipped with **two drainage holes** to facilitate cleaning. The **base**, equipped with **four swivel wheels with brakes**, allows for easy movement and stability. The **handles on the long sides of the top** and the integrated **rails** allow for the addition of various accessories (not included in the supply) to improve functionality. Included in the product: **IV pole, mattress, and non-slip mat** to ensure greater safety and comfort. The height and tilt of the top are easily adjustable via a **hand remote control**.

Technical features:

- Dimensions: W. 167 x D. 65 x h. 87-123 cm
- Tilt angle: 35°
- Top dimensions: 160x65 cm
- Work surface dimensions: 154x59 cm
- Maximum load: 150 kg
- Weight: 70 kg
- Top material: stainless steel
- Infusion stand: 119 cm
- Top with 2 holes for liquid drainage
- Drainage hole diameter: 2 cm
- Structure material: powder-coated steel
- 4 swivel wheels with brakes Ø 7.5 cm
- Handles on the long sides
- Mattress
- Non-slip mat for table top
- Electric adjustment of the height and tilt of the table via hand remote control
