

Veterinary recovery box h797_03

Stainless steel veterinary recovery cage, 2 slots with removable divider, dimensions 127.4×70×95 cm. Animal transport and recovery in clinical settings.

The veterinary recovery cage is a professional solution designed for the **transport, housing, and care of animals** in clinical and veterinary settings. It offers a **comfortable, safe, and protected environment** that prevents accidental injuries and unwanted escapes, ensuring the animal's well-being during medical recovery.

The **stainless steel** structure ensures durability, ease of sanitization, and hygienic compliance in environments with high health standards. The **removable divider** allows for the internal space to be adapted according to clinical needs, separating animals when necessary.
