

Veterinary recovery cage h797_04

Stainless steel veterinary recovery box, 2 units with removable divider. Dimensions 189x70x95 cm. Hygienic and easy to disinfect for clinics and animal transport.

The **veterinary recovery box** is a professional solution designed for clinical environments and animal transport situations. It allows for housing, transporting, and caring for animals requiring medical assistance, ensuring a **comfortable, safe, and protected environment** throughout their stay in the facility or during travel.

The cage stands out for its ease of hygienic management: it is **extremely easy to clean and disinfect**, an essential feature for maintaining high sanitation standards and preventing cross-contamination in clinical contexts.
