

Veterinary recovery cage h938_03

Single stainless steel cage h938_03 for veterinary recovery. Completely stainless material, removable dividers, thermal and acoustic insulation. Dimensions W 50.6 x D 72 x h 60 cm.

The single stainless steel cage h938_03 is a solution for the temporary recovery of animals in the veterinary field. Designed entirely in **stainless steel**, it offers durability and resistance even in conditions of intensive use, ensuring ease of cleaning and sanitization essential for clinics and surgeries.

Equipped with **removable dividers**, the cage adapts to different needs, allowing the internal space to be managed based on the size or number of animals to be admitted. The **thermal and acoustic insulation** creates a comfortable environment, reducing noise stress and maintaining an appropriate internal temperature. The **compact dimensions** optimize space without compromising the animal's comfort.

Technical features

- **Material:** Completely in stainless steel
- **Dividers:** Removable for flexible management of internal spaces
- **Insulation:** Thermal and acoustic to reduce noise and maintain temperature
- **Dimensions:** W 50.6 x D 72 x h 60 cm
