

## Veterinary table with electric adjustment h930\_74

Veterinary table with electric adjustment and enlarged stainless steel top. Dimensions: W 160 x D 65 x H from 87 to 123 cm.

The **veterinary table H930\_74** is a professional solution designed for **veterinary surgeries and clinics** that need a **large, stable, and easily adjustable workstation**. The table is equipped with **electric height adjustment**, which allows the workstation to be quickly adapted to different types of procedures and the size of the animal, improving the operating comfort of the staff.

The **scratch-resistant and chip-resistant powder-coated steel structure** guarantees robustness and durability over time. The **enlarged stainless steel worktop**, with upper dimensions of **160 x 65 cm**, offers a wide and hygienic surface, ideal for visits, treatments, and veterinary procedures. The top is equipped with **two drainage holes** of 2 cm diameter for proper fluid management.

Positioned under the worktop are **two bowls on mounting brackets**, useful during daily operations. The **long sides of the top** are provided with **handles**, while at the ends of the table there are **rails for additional accessories**, allowing the workstation to be customized based on operational needs.

The base of the table is equipped with **four swivel castors with brakes**, which allow for easy movement and secure locking during use. The **standard equipment** includes an **IV pole with two hooks**, **two bowls**, a **mattress covered with resistant material**, and a **non-slip mat**, which can be used interchangeably with the mattress according to clinical needs.

With a **maximum load capacity of 150 kg** and a total weight of **63 kg**, the H930\_74 table is suitable for intensive use and for animals of different sizes, ensuring **stability, safety, and functionality**.

Equip your clinic with a reliable and professional workstation: choose the **veterinary table H930\_74** or request a personalized quote.
