

Veterinary washing sink h601_29

Professional AISI 304 stainless steel washing sink for veterinary clinics, 140x70 cm with pull-out spray head for pre-surgical hygiene.

The **veterinary washing sink** is a professional piece of equipment designed specifically for use in surgeries and surgical clinics. Its primary function is the **pre-washing of dogs and cats**, a crucial operational phase to remove debris, parasites, and contaminants from the animal's coat before transfer to the sterile field.

Entirely constructed from **AISI 304 stainless steel**, the structure guarantees maximum corrosion resistance and impeccable hygiene management. The molded bottom prevents liquid stagnation, facilitating deep sanitization operations between procedures.

Technical features

- **Material:** High-resistance AISI 304 stainless steel
- **Bottom:** Molded to facilitate drainage and disinfection
- **Delivery system:** Professional mixer with pull-out spray head
- **Internal tub dimensions:** 116 x 50 x D. 37 cm
