

Transport trolley for 15 cylinders h55_50

Hospital trolley for 15 oxygen cylinders (9 small + 6 medium), 200 kg capacity, non-marking rubber bumpers, braking wheels, CE compliant.

The hospital cylinder transport trolley represents an essential solution for **healthcare facilities** such as hospitals, private clinics and surgeries, as well as for home contexts where frequent management of oxygen cylinders is necessary. Designed with a capacity for **15 cylinders** in a mixed configuration, the trolley combines handling practicality with load safety thanks to a robust structure and specific protective accessories.
