

Waiting room bench 3 seats h17736

3-seater waiting bench in thermoplastic. W 151.5 cm, black structure with adjustable feet. Robust and hygienic, ideal for offices and medical clinics.

The **three-seater waiting room bench** is a technical piece of furniture designed for the rational organization of indoor collective spaces. Developed to meet the needs of **post offices, banks, shopping centers, and healthcare facilities**, this seat solves the operational problem of stability on irregular surfaces thanks to the integration of **adjustable feet**. The thermoplastic shell is mounted on a solid square tube structure with shell-holder plates, painted with epoxy powders to ensure maximum resistance to wear. It represents the ideal solution for a professional target seeking a long-lasting product, easy to clean and capable of withstanding intensive use in high-traffic contexts.
