

Waiting room bench h770_29

Waiting room bench with 4 seats, featuring a polyamide shell. Dimensions: 206.5 x 61 x h 79 cm.

The **4-seater waiting room bench h770_29** is the perfect solution for furnishing professional spaces with style and functionality, such as **offices, waiting rooms, receptions, and common areas** where it is necessary to offer comfort to guests and clients. Designed with a sturdy and resistant structure, this bench combines high-quality materials and a modern design to ensure maximum durability over time and resist daily wear and tear.

The **shells** are made of **PA6 polyamide**, a glass-filled plastic material that offers great mechanical resistance and a “filigree” surface finish that makes the tactile effect pleasant and the three-dimensional appearance unique. This design not only improves aesthetics but also ensures a high level of ergonomics and comfort for the sitter, reducing fatigue during prolonged waits.

The bench is built on a **steel beam** powder-coated with epoxy, ensuring effective protection against scratches and corrosion. This type of coating offers high resistance to external agents and makes the bench ideal for intensive use environments. The beam consists of steel tubes with a diameter of 40 mm and a thickness of 3 mm, welded together for greater stability. The shells are fixed to the beam using M6 screws, ensuring a solid and secure structure.

The **bases**, also made of steel, are made of 60 mm wide and 12 mm thick flat bar, carefully curved and painted, giving the bench a modern and resistant line. The base is equipped with holes for housing adjustable **technopolymer** feet, which allow the bench to be adapted to different surfaces, always ensuring maximum stability. The bench is available in white, black, and gray, allowing for easy customization according to the destination environment.

Don't miss the opportunity to improve your professional spaces with an elegant and resistant waiting bench. **Buy now** our product **h770_29** or request a personalized quote for large quantity orders and discover our furniture solutions designed to last over time.

Technical features:

- **Overall dimensions:** 206.5 x 61 x h 79 cm.
- **Seat height:** 44 cm, for an ergonomic and comfortable posture.
- **Shell material:** Glass-filled PA6 polyamide with “filigree” finish offering a superior tactile experience and a three-dimensional design.
- **Beam:** Steel tubes \varnothing 40 mm, thickness 3 mm, coated with silver-gray epoxy powders for resistance to scratches and corrosion.
- **Bases:** 60 mm wide, 12 mm thick steel flat bar, painted, with adjustable technopolymer feet for perfect leveling on any surface.
- **Shell fixing:** Via M6 screws directly to the steel beam.
- **Shell color:** black
- **Painting:** Epoxy powders offering durability and protection against wear.

User benefits:

- **Ergonomic comfort:** The contoured shape of the shell and the seat height ensure maximum comfort for those waiting.
- **Modern aesthetics:** Contemporary design that adapts to any professional space.
- **Resistance and durability:** High-quality materials ensuring a long useful life even in high-traffic environments.
- **Easy maintenance:** The steel structure and polyamide shells allow for easy cleaning and maintenance.
- **Adjustable stability:** Thanks to the adjustable feet, it is always possible to obtain a perfectly stable seat, even on irregular surfaces.

FAQ:

1. **Is the bench suitable for outdoor spaces?**

No, the bench is designed specifically for use in indoor spaces such as offices, waiting rooms, and receptions, where it offers maximum resistance and comfort.

2. **What color are the shells?**

The shells of the bench are black.

3. **Is the bench supplied already assembled?**

No, the bench is delivered in disassembled parts but includes detailed instructions for easy assembly. The assembly process is simple and can be performed in a few steps.

Mini buying guide:

When choosing a waiting bench for your office or waiting room, it is important to consider not only the **design** but also the **sturdiness and comfort**. This **4-seater h770_29** bench is perfect for professional environments that need an elegant and resistant solution. Be sure to evaluate the available space: with an overall length of **206.5 cm**, this bench offers comfortable and well-spaced seating without being bulky. The shell material, in PA6 polyamide, and the epoxy powder coating of the structure guarantee a durable and easy-to-clean product, perfect for high-traffic spaces such as waiting rooms and public offices.
