

Wall-mounted 5-place coat rack metal hangers h908_199

Wall-mounted coat rack for children with 5 places, melamine board and metal hangers. Length 100 cm, ideal for optimizing small spaces.

The **h908_199 wall-mounted coat rack** is a technical furnishing accessory designed to ensure order and functionality in environments dedicated to early childhood. The structure combines a solid **melamine board** with **5 metal hangers**, offering a robust solution capable of withstanding the mechanical stresses of daily use in collective contexts.

The wall-fixing system allows for complete clearance of the floor surface, facilitating cleaning and sanitization operations, a fundamental requirement in educational facilities. Thanks to its length of 100 cm, the module integrates perfectly into corridors, filter zones, or classrooms, allowing for rational management of clothes and backpacks.

Technical features

- **Number of places:** 5
- **Dimensions:** L. 100 x h. 12 cm
- **Board material:** high-density melamine
- **Hanger material:** metal with protective finish
- **Fixing type:** wall-mounted (hardware excluded)
- **Intended use:** kindergartens, nurseries, playrooms
