

## Wall-mounted baby changing station for public bathrooms h218\_166

Recessed baby changing station for public spaces in stainless steel and polyethylene. Satin finish. Closed dimensions: H.585 x W.940 x D.104 mm.

The **h218\_166 wall-mounted baby changing station** is a high-end technical solution designed for setting up nursery areas in high-traffic contexts such as shopping centers and motorway service areas. The distinctive feature of this model is the **recessed mounting** into the wall, which allows for minimizing visual and physical bulk, ensuring maximum cleanliness of lines in the bathroom design. Made with a combination of **AISI 304 stainless steel** and high-density polyethylene (HDPE), the changing station integrates a durable antibacterial layer to ensure impeccable hygiene. The changing surface is designed with a concave shape to accommodate the child ergonomically and is completed by an adjustable safety belt and a practical liner dispenser integrated inside.

## Technical characteristics

- **Material:** High-density polyethylene with AISI 304 stainless steel front plate
- **Mounting type:** Recessed into the wall (total space-saving)
- **Safety:** Concave changing surface and adjustable safety belt
- **Hygiene:** Integrated permanent antibacterial protection
- **Accessories:** Internal liner dispenser and bag hook at the end
- **Closed dimensions:** 940 (W) x 104 (D) x 585 (H) mm
- **Open dimensions:** 940 (W) x 495 (D) x 585 (H) mm
- **Recommended installation height:** 665 mm from the ground
- **Load capacity:** Approximately 20 kg
- **Equipment:** Fixing screws and external identification sticker included
