

Wall-mounted baby changing station for public bathrooms h464_57

Horizontal wall-mounted baby changing station for children suitable for public places. Complete with adjustable strap. Maximum capacity: 15 Kg.

The **h464_57 wall-mounted baby changing station** is a professional solution designed for setting up nursery areas in high-traffic contexts such as hotels, restaurants, shopping centers, and service stations. The structure stands out for its **wide and deep** design, studied to accommodate the child in total safety and comfort. Made of high-quality engineering plastic, the changing station integrates **permanent antibacterial protection** that actively inhibits the proliferation of microorganisms, preventing the formation of stains and bad odors. Functionality is maximized by the presence of a **built-in shelf** for talcum powder and accessories, an integrated sanitary liner dispenser, and practical side hooks for bags, making the changing operation quick and organized.

Technical features

- **Material:** High-resistance engineering plastic
- **Hygiene:** Integrated permanent antibacterial treatment
