

Wall-mounted baby changing station h801_04

Professional wall-mounted baby changing station in HDPE with soft-close. Compact dimensions, EN 12221 compliant, designed for public restrooms.

The **professional wall-mounted changing station** is a technical solution designed for the equipment of restrooms in public and commercial contexts. Made of **high-density polyethylene (HDPE)**, the device meets the needs of hygiene, robustness, and space optimization. The retractable structure with a **slow-descent mechanism** ensures maximum operational safety, preventing sudden and accidental openings. The surface is designed for quick and thorough maintenance, essential in high-traffic environments, while the **adjustable strap** ensures the correct positioning of the infant during changing operations.

Technical features

- **Material:** High-density polyethylene (HDPE) resistant to impacts and chemical agents
- **Installation:** Wall mounting with vertical orientation for maximum space saving
- **Safety:** Soft-close system and adjustable safety strap
- **Capacity:** Suitable for children up to 11 kg or 12 months of age
- **Compliance:** Compliant with the European standard EN 12221
- **Open position dimensions:** 855 x 585 x 495 mm
- **Closed position dimensions:** 855 x 585 x 107 mm
- **Net weight:** 11.5 kg
- **Warranty:** 10 years on the structure
