

## Wall-mounted cereal dispenser 3 containers h1005\_26

Wall-mounted cereal dispenser, in 18/10 AISI 304 stainless steel and polycarbonate. Capacity: 5+5+5 lt. Dimensions: W. 54 x D. 30 x h. 78 cm.

The **h1005\_26 wall-mounted cereal dispenser with triple container** is the ideal solution for offering a wide variety of cereals in a practical and space-saving way.

The structure is made of **18/10 AISI 304 stainless steel**, guaranteeing **solidity, corrosion resistance and ease of maintenance**. The **3 containers**, made of **polycarbonate**, are resistant and equipped with thermal stability, allowing for optimal product preservation.

**Each container** has a capacity of **5 liters**, allowing for the dispensing of **three different types of cereals**. The **integrated portioner** ensures precise dosing while reducing waste.

The **wall-mounting** mode makes this dispenser perfect for optimizing buffet spaces and for high-quality professional environments.

**Choose the h1005\_26 triple wall-mounted cereal dispenser** for an orderly, elegant and functional management of your breakfast.

### Technical features:

- **Dimensions:** W. 54 x D. 30 x h. 78 cm
- **Capacity:** 5 + 5 + 5 lt
- **Structure material:** 18/10 AISI 304 stainless steel
- **Container material:** polycarbonate
- **Mounting:** wall-mounted
- **Destination:** 4 and 5-star hotels

### User benefits:

- **Large capacity:** three separate containers for different cereal varieties.
- **Durable materials:** high-quality stainless steel and polycarbonate.
- **Controlled dispensing:** integrated portioner to reduce waste.
- **Easy to clean:** hygienic and washable materials.
- **Space-saving design:** wall mounting to optimize the buffet area.

### FAQ:

#### 1. What is the main material of the structure?

The structure is made of 18/10 AISI 304 stainless steel, to guarantee robustness and corrosion resistance.

#### 2. Are the containers transparent?

Yes, the polycarbonate containers are transparent to allow for easy monitoring of the cereal level.

### 3. Is the dispenser suitable for intensive use?

Absolutely, it is designed for professional environments such as high-level hotels, with resistant and durable materials.

### 4. How does the portioner work?

The portioner allows for simple and controlled dispensing of cereals, avoiding waste and facilitating use.

### 5. Is it possible to mount the dispenser in other ways besides wall-mounting?

This model is specifically designed for wall mounting to optimize space, therefore mounting is exclusively provided in this mode.

#### Mini buying guide:

If you want to offer a varied selection of cereals in an orderly and practical way, the **triple wall-mounted dispenser** with **polycarbonate containers** is the ideal solution. The **stainless steel** structure ensures durability and ease of cleaning, while **wall mounting** allows for optimal space management. Perfect for luxury professional environments such as hotels.
