

Wall-mounted clog rack for operating room h640_23

Professional stainless steel clog shelf, 8-pair capacity, vertical space-saving design for operating rooms and sterile environments.

The **h640_23 wall-mounted clog shelf** represents a specific solution for the organization of technical footwear within **operating rooms**, clinics, and laboratories. The structure is entirely made of **stainless steel**, the material of choice for hospital environments thanks to its natural corrosion resistance and ease of sanitization. The vertical configuration is designed to maximize storage capacity even in environments with reduced square footage, guaranteeing order and rigorous hygiene.

Technical features

- **Dimensions:** W 27.5 x D 13 x H 218 cm
- **Material:** High-resistance stainless steel
- **Capacity:** Slots for 8 pairs of clogs
- **Installation:** Designed for wall mounting
- **Design:** Compact vertical development structure
