

Wall-mounted coat rack 5-place folding hangers h908_194

Wall-mounted coat rack h908_194 in melamine, 5 places with folding plastic hangers, W 100 cm. Safety and optimization for preschools.

The **h908_194 wall-mounted coat rack** is a technical solution designed for the organization of clothing in educational and school environments. The structure combines a solid **melamine** base with a system of 5 hanging stations, designed to manage constant flows of users in high-traffic areas such as nurseries and preschools.

The strength of the h908_194 model lies in the design of its **folding hangers**. This configuration allows for the elimination of rigid protrusions when the support is not in use, significantly improving the passive safety of the environments and avoiding accidental impacts during children's movements.

Technical characteristics

- **Product code:** h908_194
- **Number of stations:** 5 places
- **Dimensions:** Length 100 cm x Height 17 cm
- **Support material:** High-resistance melamine
- **Component material:** Anti-trauma technical plastic
- **Mechanics:** Retractable folding hangers
