

Wall-mounted coat rack 7-place folding hangers h908_193

Wall-mounted coat rack h908_193 in melamine, length 127 cm. Equipped with 7 plastic folding hangers, ideal for safety in kindergartens.

The **h908_193 wall-mounted coat rack** is a technical solution designed for the rational organization of spaces in educational contexts, with particular reference to **kindergartens, nurseries, and playrooms**. The system responds to the need to manage children's clothing and accessories by ensuring order and, above all, the elimination of risks related to fixed protrusions.

The structure consists of a high-density **melamine board**, a material selected for its high resistance to wear and ease of sanitization. The **7 technical plastic hangers** integrate a folding mechanism: when not in use, the hangers retract toward the base, reducing volumetric dimensions and increasing passive safety in environments with high traffic of minors.

Technical features

- **Capacity:** 7 independent places
- **Dimensions:** L. 127 x H. 17 cm
- **Support material:** high-resistance melamine
- **Hook material:** anti-shock technical plastic
- **Hanger type:** retractable and folding
- **Installation:** wall mounting
- **Scope of use:** professional school use
