

Wall-mounted galvanized steel ashtray h109_278

Wall-mounted painted galvanized steel ashtray. Dimensions: diameter 114x h. 700 mm

Wall-mounted cigarette extinguisher made entirely of **galvanized and painted steel**. It consists of a tubular structure provided with a rectangular front opening for the insertion of cigarettes and an internal steel container in which a fireproof filter is also housed to allow the cigarette to be extinguished. The tube is supplied with a specific support designed for wall mounting with expansion plugs. The lid with the cigarette logo is easy to clean and can be removed from the main tube by opening the universal lock located on the back of the lid to allow the extraction of the internal container. To be placed outside shops, ice cream parlors, shopping centers, hotels, restaurants, beach areas.
