

Wall-mounted hair dryer for hotel h7673

1200W wall-mounted hair dryer in white ABS and chrome with integrated bipolar shaver socket. Quiet, safe and ideal for hotels, gyms and wellness centers.

The **wall-mounted hair dryer h7673** is a multifunctional solution designed to optimize the guest experience in professional bathroom environments and facilities dedicated to personal care. Made with a robust **white ABS body** and embellished with elegant **chrome finishes**, this model stands out for the integration of a **bipolar shaver socket (110-220V)** directly on the wall base, protected by a practical sliding window. The device guarantees effective drying thanks to an optimized hot air flow and **low operating noise**, making it ideal not only for hotel rooms, but also for locker rooms in gyms and sports centers where acoustic comfort is essential.
