

Wall-mounted metal ashtray h957_18

Black wall-mounted ashtray, made of cold-rolled sheet metal. Dimensions: W 32 x D 16 x H 15 cm. Weight: 1.1 kg.

This **wall-mounted ashtray h957_18** is an essential accessory for those who wish to keep public or professional environments tidy and clean. Ideal for urban spaces, companies, restaurants, hotels, and common areas, it stands out for its compact design and functionality. The structure is made of **white cold-rolled sheet metal**, complying with the EN10130 standard, guaranteeing robustness and durability over time. The **fire-retardant polyester resin** coating not only ensures greater durability but is also classified according to European and international regulations, making it perfect for environments at high risk of fire exposure.

The fire-retardant coating offers an A2-s1, d0 and M1 fire rating, which is synonymous with high safety. The **polymerization process takes place at 200°C** for a duration of 20 minutes, ensuring a uniform protective layer of 60 microns, which guarantees resistance to abrasions, scratches, and accidental impacts. The **black finish**, modern and elegant, allows the ashtray to integrate into any architectural context, whether classic or contemporary.

The **wall-mounting system** makes it stable and easy to install, ideal for places with high footfall, such as building entrances, parking lots, bus stops, or recreational spaces. The compact dimensions allow for a discreet installation without taking up too much space, while the low weight facilitates assembly.

Don't let cigarette butts deface your spaces! With this **wall-mounted ashtray h957_18**, you will maintain a clean, tidy, and safe environment. **Buy it now** to improve the aesthetics and functionality of your environments. FAQ:

1. **Is the ashtray weather-resistant?**
Yes, thanks to the fire-retardant polyester resin coating, it resists humidity, rain, and sun.
2. **What color is the ashtray?**
The ashtray is black.

3. Is the ashtray fireproof?

The ashtray complies with the European fire reaction classification: A2-s1, d0.

4. Which certifications guarantee the product's safety?

It complies with EN10130, UNE EN 13501, and UNE 23727 regulations.

Mini buying guide:

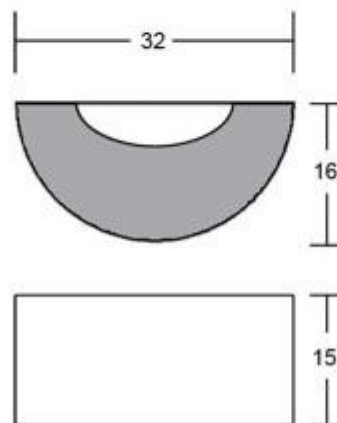

When choosing an ashtray for public or professional spaces, it is essential to consider **safety**, **material resistance**, and **aesthetics**. This h957_18 model offers a complete solution thanks to its **sheet metal** construction, treated to ensure protection against external agents and fire. If the ashtray is intended for high-traffic areas, such as parking lots or building entrances, opting for a **fireproof** and tested product is a winning choice. Always check **the dimensions** to ensure the product fits the available space and consider wall mounting for a stable and durable installation. This h957_18 model is also ideal for those looking for a compromise between functionality and elegant design.
