

Wall-mounted retractable belt barrier h745_01

Wall-mounted winder with 2.5 m length belt. Both the wall unit and the belt are available in different colors.

Wall-mounted retractable barrier with an elegant and minimal design, perfect for enclosing corridors or small spaces. The belt is made of **polyester** with a **total length of 2.5 m**. **Single belt exit** on the front and **single terminal on the back at 180°**, where the belt can be fixed. The head is equipped with a **braking system with special steel springs** that allow the belt to retract 2.5 seconds more slowly than a traditional belt. The structure guarantees **stability** and **resistance**, and it is possible to customize both the belt and the wall element by choosing from **different color variants**. The total weight is **0.5 kg**.

Technical specifications:
