

Wall-mounted retractable belt unit h40704

Wall-mounted belt reel in thermoplastic material. Available with belt lengths of 5 or 10 meters and in various colors. Made in Italy.

The **wall-mounted belt reel** is a very useful element for restricting access in areas where it is not possible to install barrier posts.

The unit can be easily installed on the wall and, thanks to a wall attachment system, does not require posts.

The belt is available in the colors: blue, black, red, yellow, green, gray, red/white and yellow/black.

Technical features:

- Belt length: 5 m and 10 m
- Structure: thermoplastic

Optional:

- wall-mounted belt receiver
