Wall mounted shower seat with adjustable legs h11504

Wall mounted shower seat with adjustable legs 43 to 55 cm of white color with grooves for water drainage

Wall mounted shower seat with adjustable legs 43 to 55 cm of white color with grooves for water drainage.

This seat wall is equipped with a system of folding legs adjustable range of 12 cm to provide greater support where the wall used does not ensure a high level of resistance. The height of the seat is fixed and is determined by the user between 43 and 55 cm from the ground.
The seat is equipped with holes for water drainage. The suction tips thermorubber offer greater stability.

All materials offers **maximum hygiene** and durability: engineering plastics, aluminum and stainless steel.
Requires no maintenance and is easy to wash.
The unique design makes it an attractive piece of furniture.

Polypropylene seat equipped with grooves for water drainage, mounted on two supports of diecast aluminum.
The supports are hinged to two stainless steel plates with holes for wall mounting with screws and plugs (not supplied).
The two plates are covered by polypropylene.

The seat is equipped with two legs hinged to the die-cast aluminum profiles, which are folded against the wall when the seat is closed. The two legs are made of anodized aluminum profile and have an adjustment range of 12 cm.
Each leg is equipped with a ferrule thermorubber.
All screws are stainless steel.
The height of the seat is fixed and is determined by the user between 43 and 55 cm from the ground.
