

Wall-mounted sink with 3 taps h509_156

Wall-mounted stainless steel sink with 3 taps and knee-operated mechanism. Dimensions: W.150 x D.45 x h.19 cm.

The wall-mounted sink with **knee-operated mechanism** is designed for healthcare and hospital environments, ensuring contact-free hygiene. Equipped with **3 taps**, it offers versatility for simultaneous use.

Made of high-quality **stainless steel**, it is robust and corrosion-resistant, ideal for intensive use. The modern design with methacrylate side panels contributes not only to aesthetics but also to safety, reducing the impact of bumps and increasing the overall durability. The double 1 1/2" drain ensures effective water evacuation.

Order the **wall-mounted sink with 3 taps** now to improve the efficiency and hygiene of your healthcare environments.

Technical features:

- **Material:** Stainless steel, methacrylate side panels.
- **Dimensions:** W. 150 x D. 45 x h. 19 cm.
- **Taps:** 3 with knee-operated mechanism
- **Drains:** 2 x 1 1/2"

User benefits:

- Reduction of cross-contamination thanks to the **knee-operated mechanism**
- Extended durability thanks to **stainless steel**
- **Compact and safe design** for high-traffic areas
- **Easy maintenance** and cleaning

FAQ:

- **Is the sink corrosion-resistant?**
Yes, stainless steel ensures excellent corrosion resistance, making it suitable for high-humidity healthcare environments.
- **What materials are used for the side panels?**
The side panels are made of methacrylate, an impact-resistant material that contributes to the safety and modern design of the sink.
- **Is a specific drainage system required?**
No, the sink is compatible with standard drainage systems thanks to the two 1 1/2" drains.

Mini buying guide: Choose this sink if you are looking for a robust, easy-to-clean product that minimizes hand contact, maintaining a high standard of hygiene.
